Versatile functions. Responsible design.

- Dual alarms and Sleep Timer
- 3.5 mm audio-out for wired headphones
- Responsible design and packaging
- Dimensions: (WxHxD) 222x147x96 mm

Highlights

Great sound. Splash resistant

From kitchen disco to brunch on the patio, this compact Bluetooth® portable radio will fill your room or outside area with rich sound. The splash-resistant design is great in the kitchen, the bathroom, or even the garden—and you can use Dynamic Bass Boost to deepen the bass when it's time to dance!

Handy kitchen timer

If you like to listen while you cook, you can set the radio's kitchen timer to help keep track of your dishes. The large, clear LCD display counts down the hours, minutes, and seconds while the big clock digits let you quickly see how much time is left.

Large LCD display

The clear LCD display with big clock digits makes it easy to see what time it is—or read the artist and song information from the DAB+ station that you're listening to. You can adjust the brightness to suit your room or dim the display at night.

Bluetooth® 5.3

This radio does more than just radio. Bluetooth® 5.3 connectivity lets you stream podcasts, playlists, and more from your smart device to the radio, and you'll enjoy a stable connection indoors and out.

FM/DAB+ digital tuner

Music, news, drama, or sports? This DAB+/FM radio gives you the widest selection of stations and crystal-clear reception. Digital tuning makes your favorite stations super-easy to find, and you can store 20 FM presets and 20 DAB+ presets for quick and easy listening.

Replaceable built-in battery

With a built-in battery that's easily replaceable when it reaches the end of its life, you can depend on this compact portable radio for years to come! A built-in handle makes it easy to carry the radio, and you get approx. 10 hours play time from a full charge if volume is kept at 70 %. The battery is charged via USB-C.

Dual alarms and Sleep Timer

If you like falling asleep to the sound of the radio, you can use the Sleep Timer to control how long the radio plays for—and set two alarms to ensure you wake up. Alarms can use an alarm tone or the radio, and the volume starts low before gradually increasing.

Audio out

Want to enjoy your favorite radio show while your partner watches TV? A 3.5 mm audio-out jack means you can plug your wired headphones into the radio and keep your sounds to yourself.

Responsible design

We're continually working to make our supply chain more sustainable and transparent. This clock radio is made with post-consumer recycled plastics, and our packaging uses FSC-certified recycled cardboard and soy-based ink.
