

BATTERY INSTALLATION

Open battery compartment door on candle base

Insert 3 type "AAA" or 2 type "AA" alkaline batteries (not included).

Ensure correct polarity, replace and close door pushing back into place to lock.

OPERATION

On/Off Mode

1. Slide switch to “ON” position to turn candle on.

2. Slide switch to “OFF” position to turn candle off.

CANDLE CARE

To clean your candle, use a soft, dry cloth.

⚠ CAUTION

This is not a toy. For decorative use only.

Do not mix old and new batteries. Replace all batteries at the same time.

Do not mix Alkaline, Standard (Carbon-Zinc) or Rechargeable (Nickel Cadmium) or (Nickel Metal Hydride) batteries.

Remove batteries if exhausted or if product is to be left unused for a long period of time.

⚠ BATTERY WARNING

KEEP OUT OF REACH OF CHILDREN. If swallowed, consult a physician immediately.

Recycle or dispose of used batteries immediately as per manufacturer’s instructions or according to federal, state and local laws.

Do not dispose of batteries in fire.
