Selling Points

Eve MotionBlinds

Upgrade Kit for Roller Blinds (HomeKit)

- Enjoy the convenience of smart shading: upgrade your existing blinds and control them conveniently via app or Siri.
- Effortlessly set schedules on Eve MotionBlinds that automatically open and close your blinds according to your daily routine – independently of iPhone and home network.
- Sustainably increase energy efficiency in your home.
- Use scenes to control all blinds and other Apple HomeKit-enabled devices at the same time. With HomePod mini, HomePod, or Apple TV as a home hub, you can control the blinds both from home or on the go.
- Easy installation: The Eve MotionBlinds Upgrade Kit motor slides into the tube of your existing blind, replacing the existing chain mechanism.
- Joins your Thread network automatically – Thread is a self-healing mesh network that makes your smart home more responsive, robust and reliable.
- Apple HomeKit-enabled for outstanding ease of use and advanced security.
- 100% Privacy: No Eve cloud, no registration, no tracking. Local intelligence and direct communication without bridge or cloud dependency.

Target Group

- Smart Home Buyers
- Builders
- Technology Enthusiasts
- iOS Users (Individuals & Families)

Technical Informationen

- Requirements: iPhone or iPad with the latest version of iOS/iPadOS; Controlling this HomeKit-enabled accessory automatically and away from home requires a HomePod or an Apple TV (4th generation or later) as a home hub
