

BATTERY INSTALLATION

Open battery compartment door on candle base
Insert "AAA" or "AA" alkaline batteries (not included).
Ensure correct polarity, replace and close door pushing back into place to lock.

OPERATION

1. Slide switch to "ON" position to turn candle on.
2. Slide switch to "OFF" position to turn candle off.
3. Slide switch to "TIMER" position to set candle with 6 hours timer function.

CANDLE CARE

To clean your candle, use a soft, dry cloth.

⚠ CAUTION

This is not a toy. For decorative use only.
Do not mix old and new batteries. Replace all batteries at the same time.
Do not mix Alkaline, Standard (Carbon-Zinc) or Rechargeable (Nickel Cadmium) or (Nickel Metal Hydride) batteries.
Remove batteries if exhausted or if product is to be left unused for a long period of time.

⚠ BATTERY WARNING

KEEP OUT OF REACH OF CHILDREN. If swallowed, consult a physician immediately.
Recycle or dispose of used batteries immediately as per manufacturer's instructions or according to federal, state and local laws.
Do not dispose of batteries in fire.
