Highlights

100% ceramic grinders

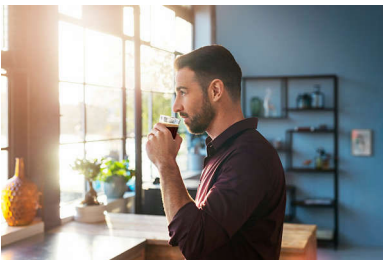

Bring out the full flavor of your coffee with our hard-wearing ceramic grinder. Our sharp-edged grinders extract the best aroma and flavour from your beans. Made from 100% ceramic material which ensures they last for at least 20.000 cups, from coarse to ultra-fine.

AquaClean filter

By changing the filter after being prompted by the machine, you will not need to descale your machine for up to 5000 cups***, while enjoying clear and purified water.

Perfect temperature and aroma

The Aroma Extract system intelligently strikes the optimum balance between brewing temperature and aroma extraction by keeping the water temperature between 90 and 98°C,

while regulating the water flow rate, so you can enjoy delicious coffees.

12-step grinder adjustment

Our durable ceramic grinders can be adjusted in 12 steps, so you can turn your beans into anything from ultra-fine powder to coarse grindings.

Extra shot function

Boost your drink's intensity with the coffee customizer's extra-shot feature, which adds powerful flavor without the bitterness.

Premium Design

Your coffee takes center-stage thanks to the appliance's elegant design. The chromed front provides a premium backdrop for every cup of

coffee and adds an extra touch of class to your kitchen.

Exceptionally easy to clean

For your convenience, you can put LatteGo drip tray and the coffee ground container in the dishwasher. This will save time and ensure a hygienic cleaning.

Intuitive display

There's little standing between you and your next delicious cup of coffee with our easy to use display. In a few steps you can customize your fresh-bean flavor and flow smoothly from craving to cup.

Coffee customizer

Make any coffee your own with the coffee customizer's easily adjustable settings for intensity and coffee length.
