**Overview**

**25 Word Product Description**

CORSAIR RX120 PWM Fans push through obstructions using high static pressure and PWM controlled speeds, built with premium Liquid Crystal Polymer and CORSAIR AirGuide technology.

**Overview**

**50 Word Product Description**

CORSAIR RX120 PWM Fans deliver precise speed control, outstanding static pressure, and seamless connectivity with iCUE LINK. Made with premium Liquid Crystal Polymer, the fan features AirGuide Technology for focused cooling. The included iCUE LINK System Hub gets you started in the revolutionary iCUE LINK ecosystem for a cleaner and easier build.

**Overview**

**100 Word Product Description**

With a groundbreaking design, CORSAIR RX120 120mm PWM Fans are among the highest performing fans in their class, delivering superior airflow at speeds up to 2,100 RPM while producing our lowest tested noise levels. Thanks to patent-pending iCUE LINK technology, your fans can connect seamlessly together, all connected to the included iCUE LINK System Hub with a single cable. The fan blade is made of premium Liquid Crystal Polymer for outstanding durability and increased performance, further improved by CORSAIR AirGuide Technology for focused cooling. CORSAIR's Magnetic Dome bearing ensures high longevity and low noise thanks to reduced friction, alongside Zero RPM mode for virtual silence at low loads.

## Features

- **PWM Controlled Speeds via iCUE LINK:** Set precise fan speeds up to 2,100 RPM while providing up to 74.2 CFM airflow to your system.
- **High Static Pressure:** With 4.38mm-H<sub>2</sub>O of static pressure, the RX Series is great for pushing air through obstructions such as high-density radiators.
- **LINK Your Fans Together:** The included iCUE LINK bridge connectors can connect your fans directly to each other, creating a seamless bank of fans all connected to the iCUE LINK System Hub (sold separately) with just a single cable.
- **Premium Liquid Crystal Polymer Construction:** Incredibly strong and durable, reinforced with glass fiber, resulting in excellent rigidity, reduced blade vibration, and increased performance.
- **CORSAIR AirGuide Technology:** Anti-vortex vanes direct airflow at your hottest components for concentrated cooling, pushing air in the direction you need when mounted to a radiator or heatsink.
- **Quiet Operation with Magnetic Dome Bearing:** CORSAIR's Magnetic Dome bearing minimizes noise and reduces friction for greater longevity.
- **Zero RPM Mode:** Supports Zero RPM PWM signals to completely eliminate fan noise at low loads.
- **Durable Glass Fiber-Reinforced Frame:** Built with a stronger frame capable of withstanding higher temperatures, fitted with anti-vibration dampeners to reduce noise.
- **Optional Decorative Side Plate:** Add a personal touch to your system with a Decorative Side Plate accessory (sold separately) that easily installs on the fan frame.
- **Unite Your Setup:** Create automated fan curves with powerful CORSAIR iCUE software, for intelligent cooling that responds to your system's needs.
- **Part of the iCUE LINK Ecosystem:** iCUE LINK is the next leap forward in PC building, spanning across fans, coolers, PSUs, and more, letting you neatly chain all of these components together for clean cabling, less mess, and a faster build.

## Tech Specs

Dimensions (mm):	120mm x 120mm x 25mm
Rated Current - Fan:	0.58A
Speed:	0, 400 - 2100 RPM ±10%
Airflow:	10.5 – 74.2 CFM
Static Pressure:	0.12 - 4.38 mm-H <sub>2</sub> O
Sound Level:	10 - 36 dBA
Connection cable:	iCUE LINK
PWM Control:	0%, 20% - 100%
Bearing Type:	Magnetic Dome
Cable Length:	135mm, 600mm
Warranty:	5 Years

**Box Contents**

- 3x RX120 Fans
- 2x Active Connectors
- 2x Passive Connectors
- 1x iCUE LINK System Hub
- 1x iCUE LINK Cable, 135mm, Slim-Slim Cable Head
- 1x iCUE LINK Cable, 600mm, Straight-Slim Cable Head
- 1x PCIe Power Cable
- 1x USB Cable
- 12x QuikTurn Mounting Screws
